Bring new power to your phone. With the new Nokia 3410 phone you can download completely new games and applications to your phone.

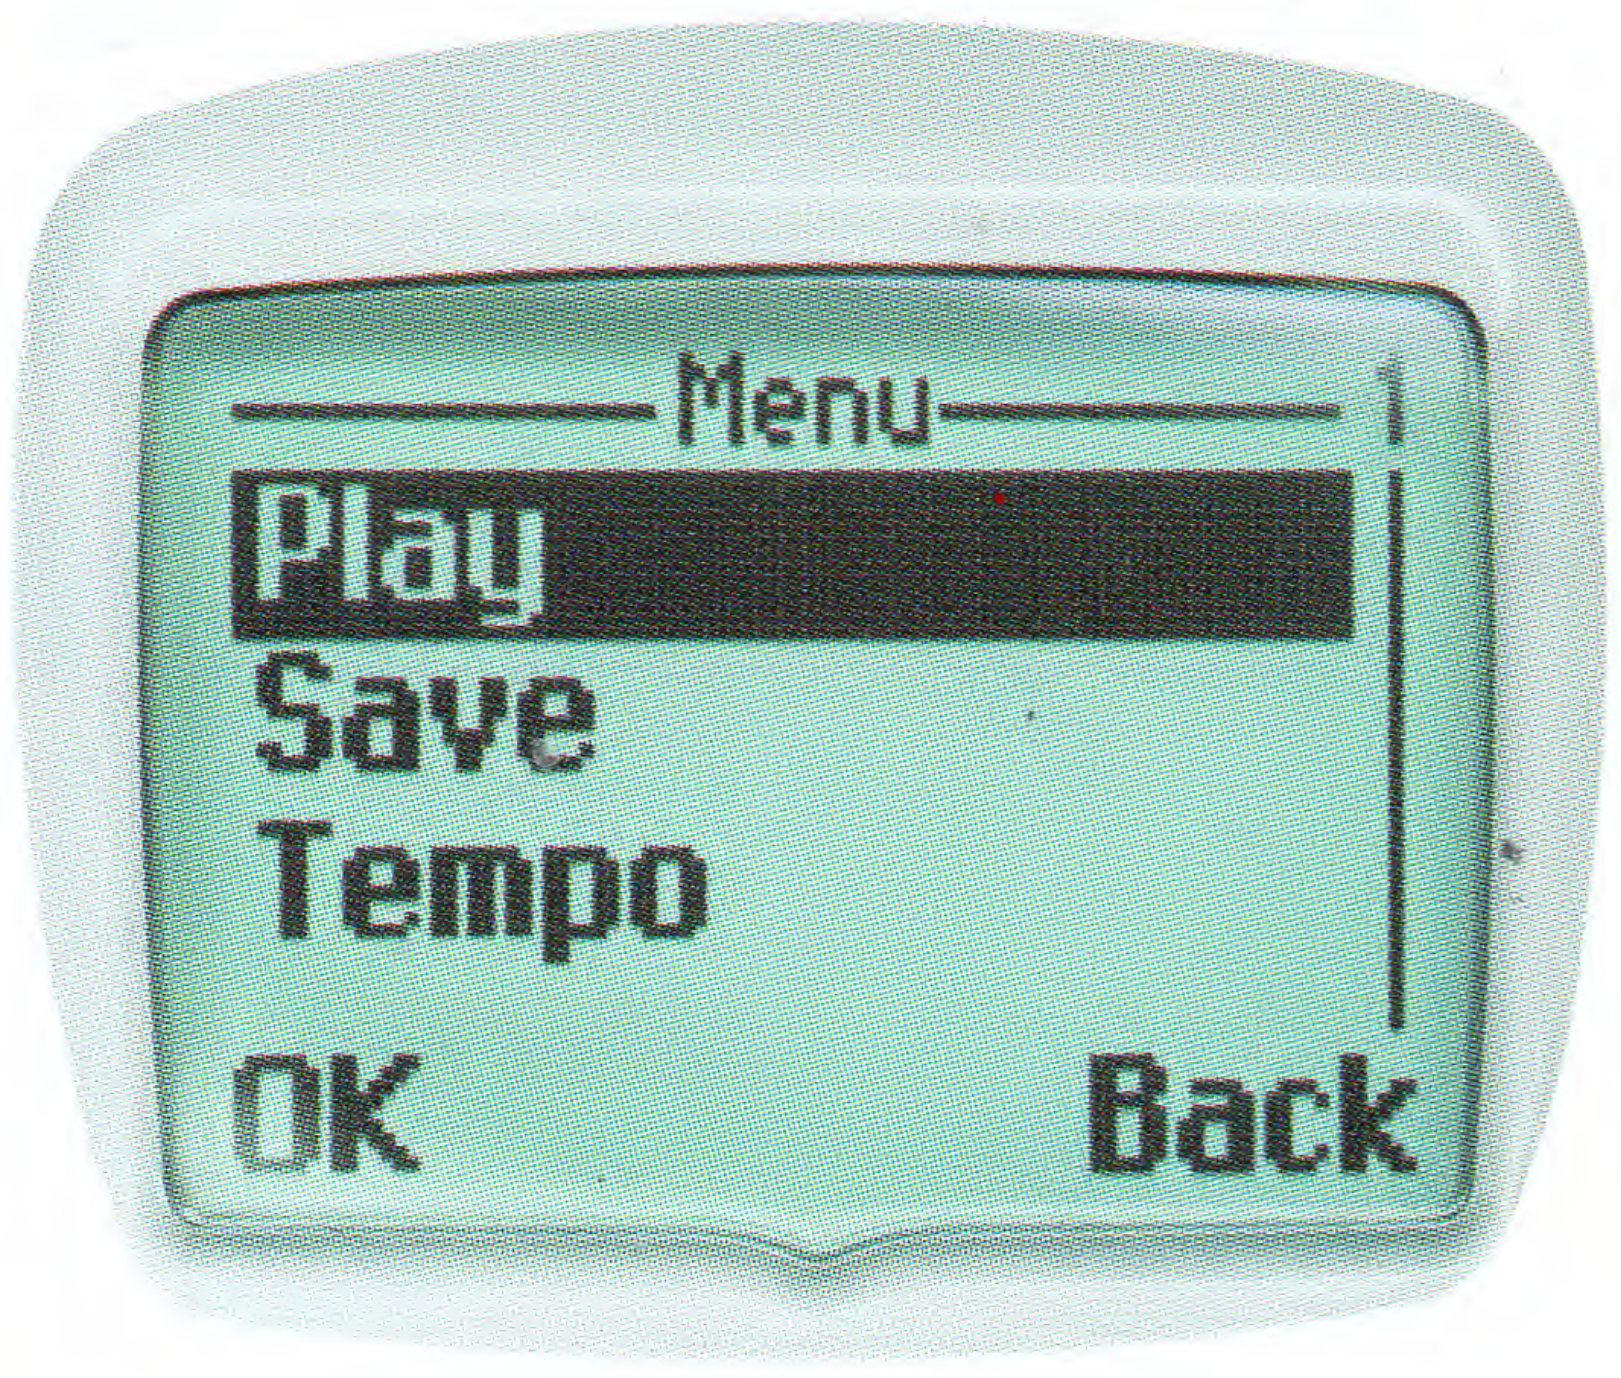
Game not over

The Nokia 3410 phone supports Java MIDP. This makes downloading new games and applications as easy as getting new ringing tones and screensavers. There are five games already in the Nokia 3410 phone when you buy it. And if you want a new challenge, you can download up to five Java games or applications, depending on the size. Personalised calendars, animations, maps, a bilingual dictionary, just about anything. They are available over WAP from Club Nokia and from many content providers.

Change the picture

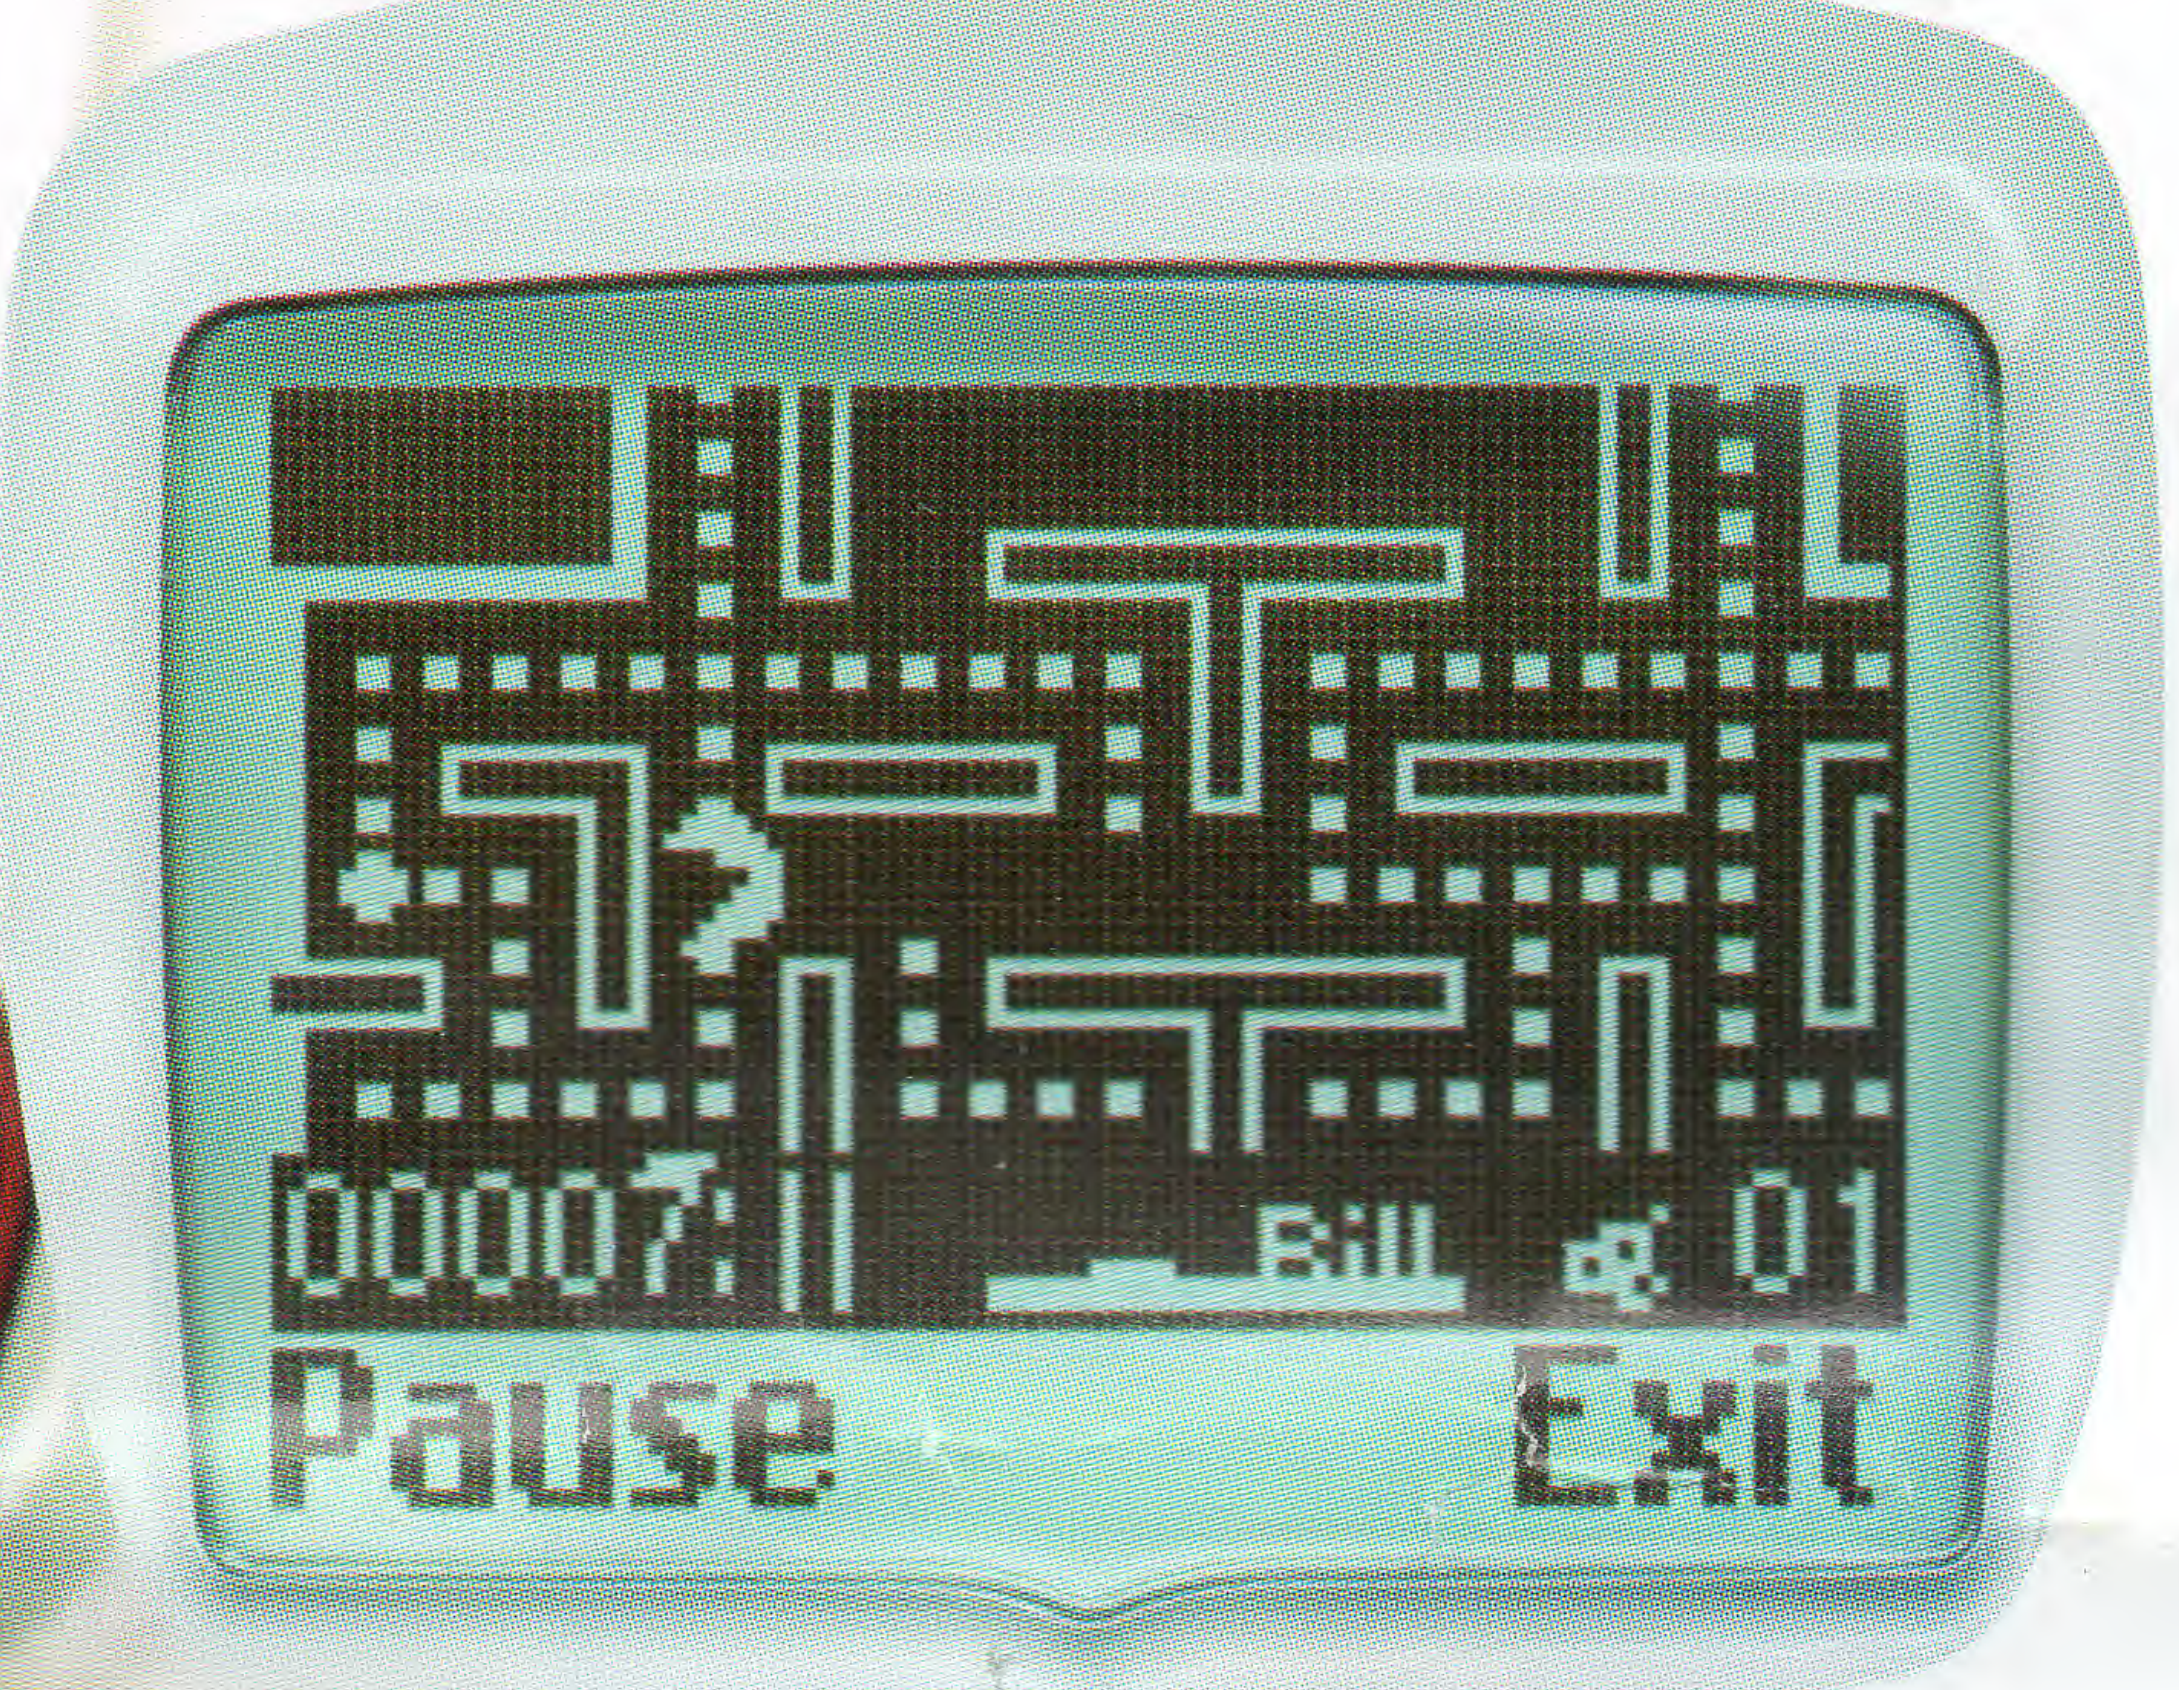
You can take any bitmap embedded in the phone, copy it, edit it and save it as your screensaver. There's a picture editor in the Nokia 3410 phone. So you can create your own personal bitmap, send it to a friend or save it as your screensaver.

Use the ringing tone editor in the Nokia 3410 phone to create your own sound to use as your ringing tone.

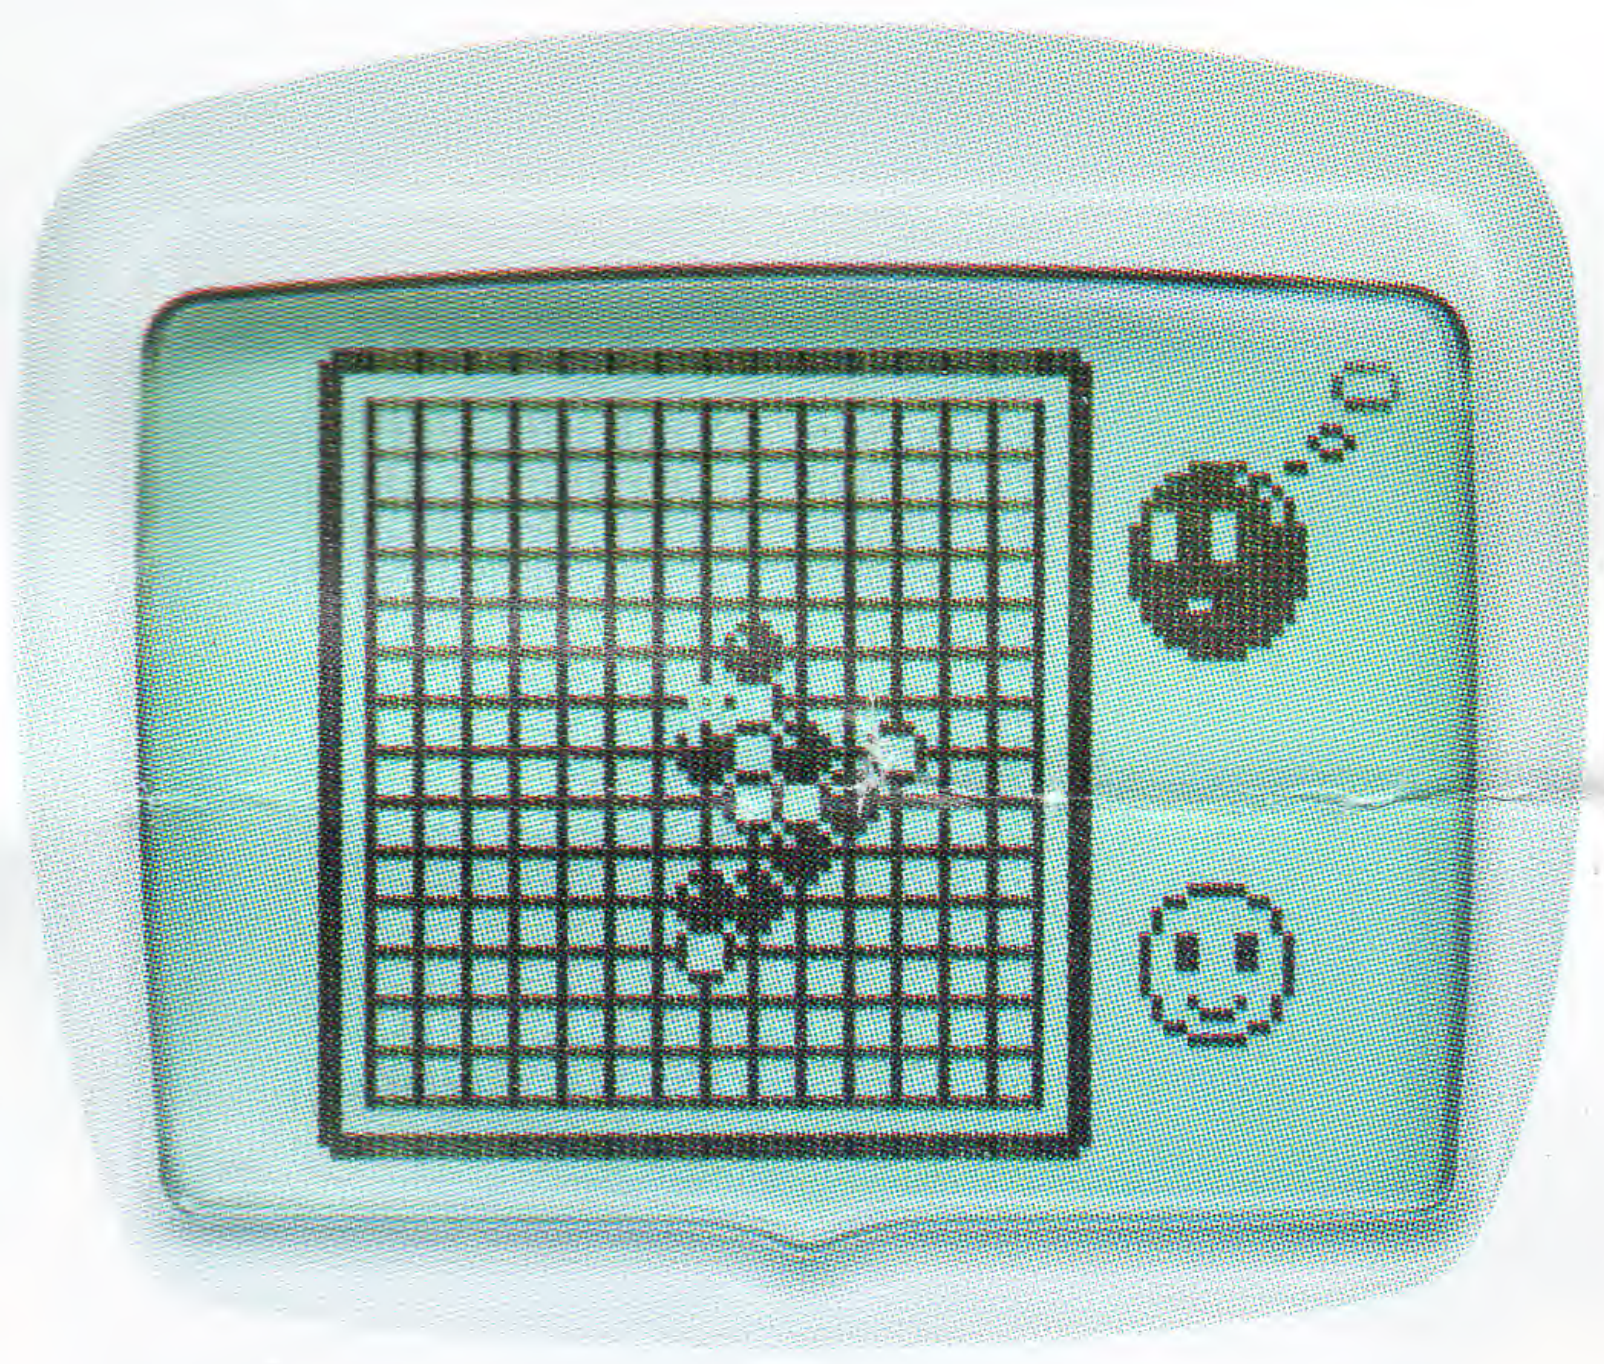


You can also compose your own tune and use it as your ringing tone or text message alert.

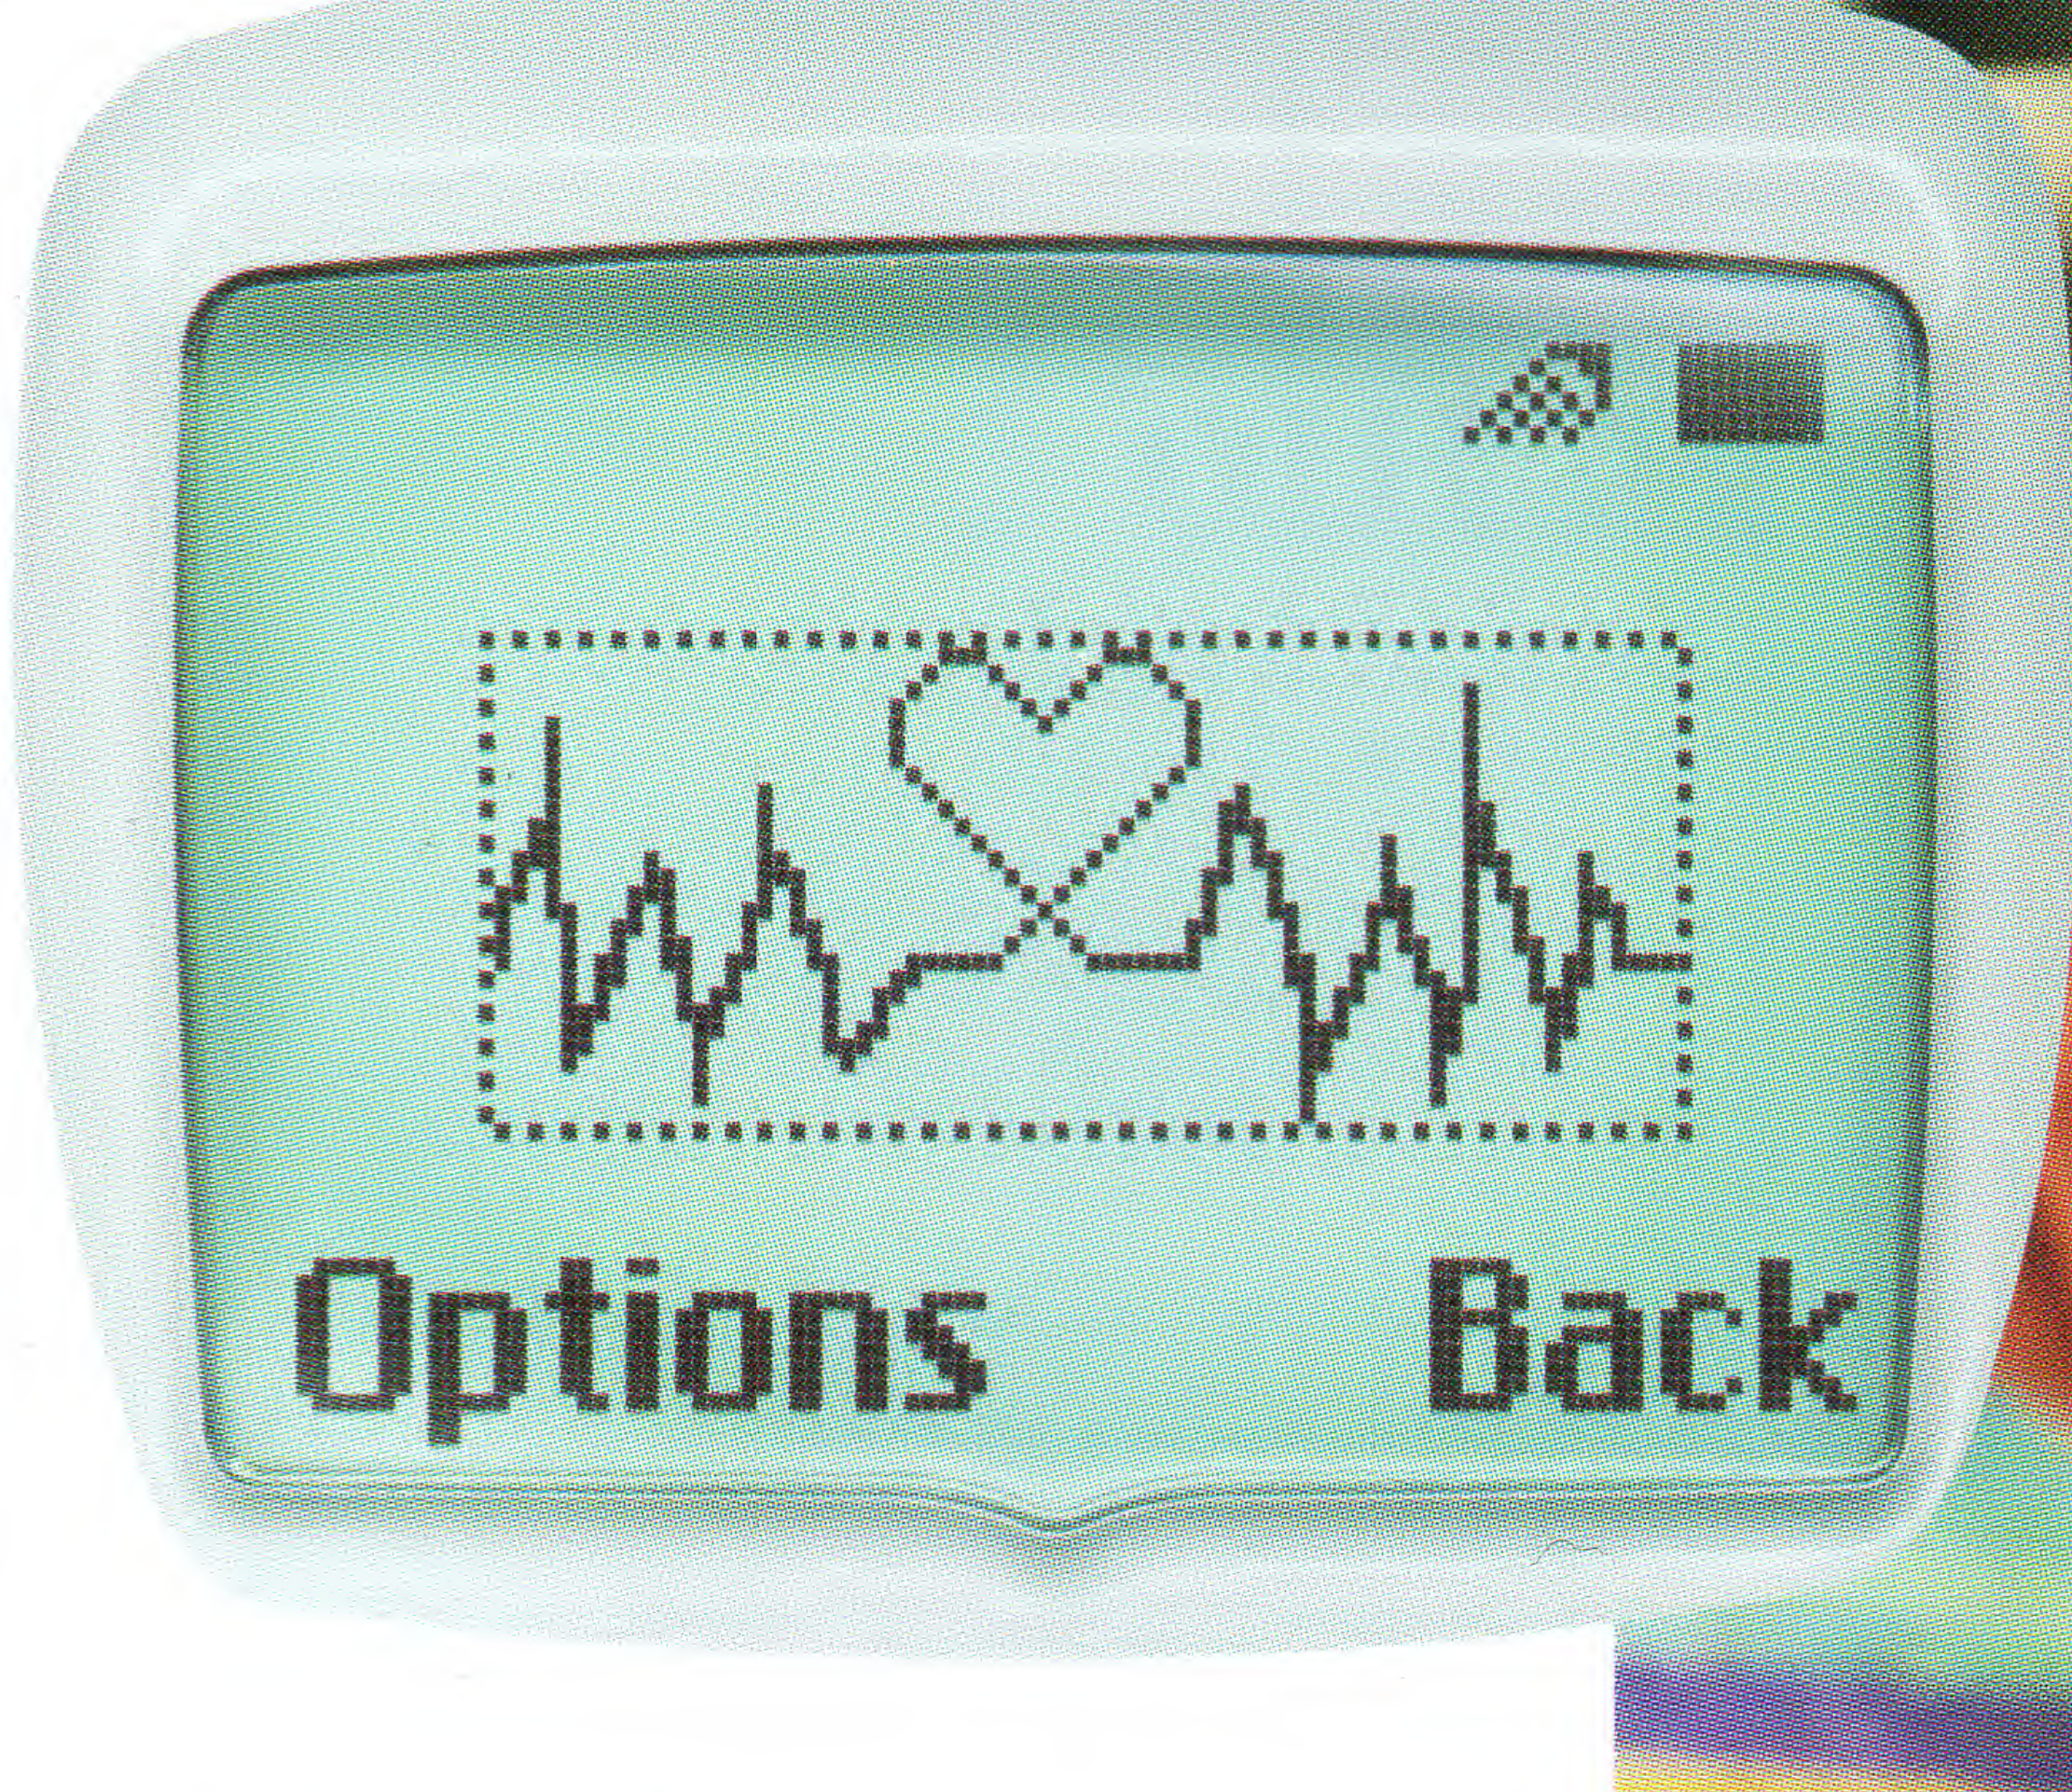
Game of the week?
The Nokia 3410 phone supports WAP push, which means that you can subscribe to a service so that you don't have to go and fetch it. It comes to you. What sort of service? It could the joke of the day, the game of the week, or even a new application that comes on your birthday.



The game continues: you can get new Java games over the air to your phone.



Join the Club
Join Club Nokia and get more fun and functionality for your Nokia 3410 phone. You can play games online, and you can buy new game packs and complete new Java games and download them to your phone. Use the online picture editor to create a completely new design – you can then send it to your phone or to a friend's. And there's a ringing tone composer where your can create your own sound. Share it or send it to yourself.



Take a bitmap – or even an animation – edit it using the picture editor in the Nokia 3410 phone, and use it as your screensaver.

NOKIA 3410

Join Club Nokia and you can buy new Java games and download them to your Nokia 3410 phone.
